The impassable roads are not only found in the outlying western county district, but close to Ogden, as well. Even in west Ogden, a short distance from the viaduct, it is pointed out that for weeks the carriers and farmers who drive automobiles have been compelled to take to the railroad tracks to avoid the possibility of being mired down.

NEED PAVING

Although the roads are said to be gradually getting worse each year, due to the overflow of artesian wells which are being drilled frequently by farmers, the people of the section are not shouldering the blame upon the county commissioners. They declare that the violinity near Hooper, expresses the sind foundation upon which to build unless the country is drained or concrete paving is installed.

Not only do bad conditions exist on highways connecting the towns of Hooper, Plain City, Kanesville, Warren and other places, but almost impassable road conditions are also reported within the limits of the towns. HOOPER MUDTRAP

In the heart of Hooper there is said to exist a mudtrap which has caught scores of automobiles in its clutches during the last few weeks and it is now a common sight to witness a car mired down to the fenders with the whichs spinning in a futile attempt to exacept.

BASEBALL DANCE Create Gas, Sourness and Pain

Medical authorities state that nearly nine-tenths of the cases of stomach from ble, indigestion, sourness, burning, gas, bloating, nauses, etc., are due to an excess of hydrochieric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the dhaagreeable symptoms which every stomach sufferer knows so well.
